CHERRY HILL NURSERIES

T. C. THURLOW'S SONS, Inc.

West Newbury Massachusetts

ESTABLISHED 1832

A PARTIAL VIEW OF THE FAMOUS CHERRY HILL HEDGES

WE invite your attention to the easy manner in which our Nurseries may be reached. We are only 36 miles north of Boston and excellent motor roads from all directions reach our place. From Boston via the Andover Turnpike through Haverhill or via the North Shore and Newburyport or over the historic Newburyport Turnpike turning at Dummer's Mills. From the north down the beautiful Merrimac Valley and from Maine and the Provinces through Portland and Portsmouth

Visitors are welcome every day except Sunday

N presenting our annual catalog we want to thank you for your past confidence and say that we have done our best to merit it. Our motto for 1920 will be "Quality plus Service," and we know that our high grade stock, together with our years of experience, added to a sincere desire to do what is right, will make this the best year for both you and ourselves. Mistakes will occur from time to time, and we want you to help us by reporting promptly anything that is not right.

In making out our schedule of prices we have endeavored to be as fair as is consistent with the high cost of materials and production.

All prices herein named are for stock at the Nursery or delivered at the railroad station. Boxing and packing will be charged at actual cost. Five of a variety will be sold at the ten rate and fifty of a variety at the hundred rate.

Specimen Trees and Shrubs. Our prices cover the average run of our trees and shrubs, and when a personal selection is made of any that have unusual merit, a special price is charged.

Delivery. Many times we can deliver stock to destination by motor truck at a cost of practically no more than the combined cost of packing and freight. This means that the stock will reach destination on same day and in the best of order.

Warranty. We exercise the greatest care to have all our stock true to name and will refund the original purchase price, on proper proof, of all that proves untrue. We give no further warranty, express or implied, and in case of error on our part it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price paid us for the stock.

Official Certificate No. 139.

Boston, Dec. 24, 1919.

TO WHOM IT MAY CONCERN:

THIS IS TO CERTIFY that I have this Twenty-second day of December completed the inspection of the nursery stock of Cherry Hill Nurseries, T. C. Thurlow's Sons, grown at West Newbury, State of Massachusetts, and find it to be apparently free from all injurious insects and diseases which might be transferred on nursery stock from the nursery to the orchard or garden.

This certificate is good until July 1, 1920.

Inspected by Potter & Bacheller.

(Signed) R. H. ALLEN, Inspector.

Persian Yellow. The old-fashioned yellow rose of our grandmothers' gardens.

HERBACEOUS PLANTS

We do not attempt to carry a long line of perennials, but our aim has been to grow the BEST, both in variety and in the size of the plants. In many cases we can furnish strong clumps which will produce an immediate effect and give color to the perennial border throughout the season.

Sometimes certain varieties are superior to the type and we have discarded those which have not distinct coloring and free blooming habits.

Some varieties are very scarce, as the foreign supply has been cut off, and these varieties we are able to furnish in small quantities only, for this season.

We have, many times, plants in our gardens which are not listed, and would be glad to advise you by special correspondence if certain articles are desired.

Our Peonies, Phlox, and Iris are listed in a separate catalog, which will be sent on application.
